## ASSET PURPOSE:

This asset replaced our 16 year-old All Terrain Vehicle. This asset is a side-by-side ATV, which can be operated on the beach as well as the roadway (full DOT compliance). This asset provides quick response to beach emergencies, allowing us to transport a medic for immediate medical response or a second officer for volatile situational responses. This asset has proven to be ideal for summer patrols on Plum Island (both beach and residential areas), eliminating the need for our officers to have to park the conventional cruiser in order to deploy the ATV. This saves valuable time in emergency situations.
