Hi Maureen,

Thank you for your patience and cooperation regarding review of the possible vernal pool habitat at Pearson Drive. The NHESP has completed its extended review of existing information (including firsthand observations of the physical characteristics of the wetland basin) and has determined that there is still a need for additional information about pool function to conclude whether it should be certified as a vernal pool habitat. Therefore, the NHESP is not certifying the pool at this time. Please note that this decision does not preclude a possible certification of the pool in the future, should additional information about its habitat function be received.

Best,
Jake

Hi Maureen,

We are working on this and plan to communicate a decision by early next week (before 7/13). Thank you for your patience.

Jake

Good morning,

It was nice meeting you both out at the above site the other week. I wanted to check in to see if NHESP has been any determination regarding the vernal pool. We meet with Conservation on next Tuesday at 7-13-21 and was hoping for some feedback, email or documentation.

Thank you
