Subject: Wiffletree Works Letter

Dear Planning Board Members,

I am writing in support of the Wiffletree Works application. I am confident that the local community (and extended community members, like myself) will benefit from the educational and artistic opportunities this effort intends to provide. I also believe the facility's parking and traffic flow plan is sufficient to accommodate the intended use of the property.

Arts and lifelong learning are vital to the growth and connection of this and any community, offering opportunities for all ages to engage in creative and educational pursuits. These activities help broaden our perspectives and create meaningful, real-world connections.

Although change can sometimes bring disruption, revitalizing this historic structure will bring new energy to Newbury and the surrounding communities. The blend of art, history, nature, and farming that Wiffletree Works will offer is truly unique. I truly believe their success will enhance the lives of those involved. I hope you will consider supporting this initiative and helping it flourish.

I appreciate your consideration in supporting bringing this vision to life.

Sincerely,

Simonetta Harrison

29 Hardy Street, Newburyport
